FINANCIAL AND COMMERCIAL.

SATURDAY, June 27-6 P. M. The railway share market has been strong and excited to-day, and a further material advance has been established in Reading. Erie, Northwestern and leading stocks. The volume of business has been increasing daily of late, and the speculative feeling of the street is decidedly bullish. There was n active demand for Reading at 106, and Northwestferred sold as high as 80, while Erie touched ey was extremely easy from the opening to e close, and loans on mixed collaterals were m at 5 & 6 per cent, the supply being largely in excess of this city for the week ending to-day is favorable to continued ease, the deposits having increased \$2,917,820 and the legal tender notes \$1,285,721, vide the loans, in which are included all securities sed by the banks, have been extended \$2,386,428. The drain of specie to Europe and the mand for Customs duties in the absence of sales the Treasury are reflected in a decrease of \$1,371,530 in specie. The circulation shows a de- sixty days, 5.15 a 5.12%. rease of \$70,399. The totals of the last two weekly

The banks are complaining of that portion of the new tax bill passed by the House of Representative yesterday which taxes their capital, deposits and lation to the extent described in the following extract from the act:-

There shall be a tax of one-twelfth of one per centum per month upon the average amount of the deposits of money, other than public money of the United States, subject to payment by check or draft, or represented by certificates of deposit, or otherwise, whether payable on demand or at some future day, with any person, bank, association, company or corporation engaged in the business of banking; and a tax of one-quarter of one per centum each month on the average amount of all deposits of public money in their possession to the credit of the Treasurer or any disbursing officer of the United States; and a tax of one-twenty-fourth of one per centum each month upon the capital of any bank, association, company or corporation engaged in the business of banking and on the capital of any bank, association in the business of banking, beyond the average amount invested in United States bonds; and a tax of one-sixth of one per centum each month upon the average amount of circulation issued by any banking association, corporation, company or person, including as circulation all certified checks and all notes and other obligations calculated or intended to circulate or to be used as money, but not including that in the vaults of the bank or redeemed and on deposit for said bank.

It is estimated on good authority that the taxes to be paid under this act would be about eighteen miltions per annum, or four and a quarter per cent upon a capital of four hundred and twenty millions, the amount of the capital of all the banks in October last. It is further complained that Congress has by a special act rendered bank stocks subject to State taxation, and the State taxes on the par value of the stocks vary from two ave per cent. This taxation would undonbtedly onerous and opposed to the banking interests of as country. While, therefore, we are willing to see nai banks well taxed, we must avoid taxing them out of existence until we have something ter to substitute for them, and hence a less vic at measure than the one in question is desirable inder existing circumstances. The probability is hat the bill will be modified in this respect in its

REAL ESTATE MATTERS.

Results of Two Weeks' Operations in New York and Vicinity.

The great feature of the real estate market during the past two weeks has been the sales of suburban the past two weeks has been the sales of suburban property, held mostly on the ground offered. There can be no doubt of the rapid appreciation of property outside of the city, suitably located for villa residences, and in so far as we have proceeded New Jersey appears to have the advantage; but whether this really be the case or not, considering the several conditions likely to arise, is a matter about which there is not so much coftainty. The actual experience of the settler is worth more than all the investigation of the prospecter or tourist, and when all matters of convenience, health, &c., are taken into account, some change may appear in the present glowing horizon. However, we shall have more to say concerning these points again, and as the reports of the different sales published from time to time have been so full we simply give now the totals:—

There is but little change to be noted in these arti cles this week, which, to a certain extent, no doubt, can be attributed to the difficulty existing between ouilders and their workmen, causing a delay in the fulfilment of contracts. Eastern spruce was only moderately active and again lower, closing at \$20 a \$22, the latter an extreme price. The stock is light, but large arrivals are soon expected and buyers an-
